

Need You Here

I Dont Know How But They Found Me

I need you here
I need you here
And if ever there's some place I've got to be
Then I need you here with me

There is no other place in this world that I'd rather be
If I can't be at home then send my apologies
Can't you stay right here forever pretty please?
I need you here with me
I need you here
I need you here
I need you here
And if ever there's some place I've got to be
Then I need you here with me

Where do you go
When you're not home?
It won't be long
Till you are grown
I love you so
I love you too
So I'll stay right here with you

There is no other place in this world that I'd rather be
If I can't be at home then I'll send my apologies
To you
To you
I need you here
I need you here
I need you here
I need you here

(That makes me happy)
