

WHAT LOVE?

I Dont Know How But They Found Me

Now we come to a very important section
The simple mechanics of reproduction
Or whatever you want to call it

What love
What love
What love
What love could get this vicious?
That's right
But never mind
This blood sometimes holiness brings you
What love
What love
What love
What love could get this vicious?
That's right
But never mind
This blood sometimes holiness brings you

Get down, ooh
I think you've got a hold of me
But don't let go
And I'll never set you free
You only come around
When I got somebody new
You only sacrifice the things I never ask you to
Lord help me
I think I'm gonna cry
I guess I met you at the wrong time

What love
What love
What love
What love could get this vicious?
That's right
But never mind
This blood sometimes holiness brings you
What love
What love
What love
What love could get this vicious?
That's right
But never mind
This blood sometimes holiness brings you

This feeling
It's coming like a tidal wave
Forget those things you heard
Forget the things I say
Leave me in misery
A formal casualty
Over an overture of sexual perversity
Lord help me
I think I'm gonna cry
I guess I met you at the wrong time

What love

What love
What love
What love could get this vicious?
That's right
But never mind
This blood sometimes holiness brings you (I can't fight this feeling)
What love
What love
What love
What love could get this vicious?
That's right
But never mind
This blood sometimes holiness brings you

This night
Is this the one?
Where you climb up on me
And we have some fun?
Or is this the night
Where we go too far?
Where we get untethered
And we learn our lesson

I promised you things that I didn't mean
Pushed you to the edge of insanity
I shook all the wrong hands
At all the right times
Who did you expect me to be?

What love
What love
What love
What love could get this vicious? (I've got to get to you)
That's right
But never mind (I've got to get to you)
This blood sometimes holiness brings you
What love
What love (I can't get-)
What love
What love could get this vicious? (I've got to get to you)
That's right
But never mind
This blood sometimes holiness brings you

I can't fight this feeling
I can't fight this feeling
