

Anthem

I Fight Dragons

Somebody smarter than me once said if can't see then you'll be led by the nose

And it's up to them which way you go

It seems to me that I'm part of a silent majority who would like to know

When the hell do we get heard at all?

Let's write it

Our anthem

Before they get the chance to

No we won't

Keep quiet

We won't shut up and buy it

Nobodys speaking for us so

It's time we

Defy them

Stand up and sing the anthem

Now

And I'm not saying that I know everything but I know I have a right to care
And to criticize what's on the air

So if you're feeling that you can't see yourself as something they tell you
you should be

Well you sound a lot like me

Let's write it

Our anthem

Before they get the chance to

No we won't

Keep quiet

We won't shut up and buy it

Nobodys speaking for us so

It's time we

Defy them

Stand up and sing the anthem

Now

For ourselves and for the ones who care

In the end it all deserve a chance

If we let go, then we will never know

We will lose, it's all about the answers so

Let's write it

Our anthem

Before they get the chance to

No we won't

Keep quiet

We won't shut up and buy it

Nobodys speaking for us so

It's time we

Defy them

Stand up and sing the anthem

Now
