

## Circles

### I Fight Dragons

Someone tell me not to worry  
Someone let me know we'll be ok  
That someones on the way

Time goes by and I get older  
Tell me why the wiser never stays  
It always fades away

I run in circles all around my head  
No one to run against

[Chorus:]

Love, tell me what to do  
I keep losing the truth  
(I keep waiting on you)  
Truth tell me who to be  
I feel tired and free  
Freedom lead me anywhere  
Anywhere I will be loved  
Love tell me what to do  
And who to become

Lights turn on then fade to darkness  
Soon enough they come back on again  
But one day that will end

So I lead myself much deeper  
Something tells me we were almost there  
But then it disappeared

I run in circles all around my head  
Long gone and back again

[Chorus]
