

# Money

## I Fight Dragons

Green is where it's at  
Green will never let you down  
You can bet your life on that  
Win the bet and buy a crown  
'Cause when pushin' comes to shove  
Money conquers faith and love  
You can buy 'em up for nothing down  
Money makes the world go round and round  
Round and around  
Money makes the world go round and round  
Round and around

Sell your soul at cost  
Buy the bar another round  
Make yourself the boss  
Pay your worker's shit and tax the ground  
'Cause when money is your friend  
Then the party never ends  
Hire a crew and you can paint the town  
Money makes the world go round and round  
Round and around  
Money makes the world go round and round  
Round and around

(NES Breakdown)

Money makes the world go round and round  
Round and around  
Money makes the world go round and round  
Round and around
