

Seek and Destroy

I Fight Dragons

Get a gold kid, get a grip on it
Find a focus, follow it, never quit
Get the good grades, go to college
Create a good job, buy a house, start again

They tell you
to be yourself
Then they turn you
into someone else

Houston there's a problem in my design seek and destroy!)
I destroy the things I'm dying to find (seek and destroy!)
It's somewhat self-reflective, to make this my directive
Houston, get your mission outta my mind (seek and destroy!)

It's a system, and its powerful
Can't resist 'em, wanna eat, learn the rules
It's a big game, and they play to win
If they lose then
pull the pockets, start again

So what now,
I'm just one man
That somehow will make you understand
