I Fight Dragons

You're tired you're distant, you're acting quiet
I see it, I hear it, but I don't buy it
You tell me you think we should take some time off
We're both busy, so who is he?
Does he take your mind off me?

Say it with a smile
Look me in the eye
Don't you know the way to say goodbye?
In a little while I'll be better
So hurry off in style
Semper fi

Now I'm not the kind of person to break down
So stop it, this bullshit, go save your fake frown
You'll need it when you get hurt and let down
I can see what you will be
But now I don't want you around me

Say it with a smile
Look me in the eye
Don't you know the way to say goodbye?
In a little while I'll be better
So hurry off in style
Semper fi

'Stead of trying to pull shit
Put away the bullshit
I can tell you're full of shit now
'Stead of trying to pull shit
Put away the bullshit
I can tell you're full of shit now

Say it with a smile
Look me in the eye
Don't you know the way to say goodbye?
In a little while I'll be better
So hurry off in style
