Beginning Of The End

I Killed the Prom Queen

Please take me back to the start
When we still held this close to our hearts
I won’t let it tear us apart

Please take me back to the times
When you could see the life in my eyes
And you knew that my love will never die

My love will never die

Please take me back to the times
When you could see the life in my eyes
And you knew that my love will never die
