

Goodbye Sun

I Monster

I've had my fill of summer weather
Please turn off that sun
I want you rain (Rain, rain, rain)
The sky, you're not the one

And it doesn't make me sad at all
(Doesn't make me sad at all)
No, it makes me feel much better
(Makes me feel much better)
I'm in heaven in a waterfall
(Heaven in a waterfall)
Yes, I love it when it's wetter
(Wetter and wetter)
And if I catch my death of cold
I'm waiting for the stormy afternoon,
let's find a shower soon
I'm waiting for the stormy afternoon
That I can share with you
(Share with you)

I feel the splash upon my forehead
I think it's going to come
Those cheeky birds, I hear them laughing
I guess they're having fun

And it doesn't make me mad at all
(Doesn't make me mad at all)
No, it makes me feel much better
(Makes me feel much better)
I'm in heaven when that water falls
(Heaven in a waterfall)
Yes, I love it when it's wetter
(Wetter and wetter)
And if I catch my death of cold
I'm waiting for the stormy afternoon,
let's find a shower soon
I'm waiting for the stormy afternoon,
that I can share with you
(Hear that sound, let the rain come)

The severe storms of recent weeks
Are set to continue into the summer and beyond
Those living in low-lying areas are advised to leave immediately

Well, it doesn't make me mad at all
(Doesn't make me mad at all)
No, it makes me feel much better
(Makes me feel much better)
I'm in heaven when that water falls
(Heaven in a waterfall)
Yes, I love it when it's wetter
(Wetter and wetter)
And if I catch my death of cold
I'm waiting for the stormy afternoon,
let's find a shower soon
I'm waiting for the stormy afternoon,
that I can share with you

I'm waiting for the stormy afternoon,
let's find a shower soon
I'm waiting for the stormy afternoon,
that I can share with you

(Hear that sound, let the rain come)
(Hear that sound, let the rain come)
(Hear that sound, let the rain come)
(Hear that sound, let the rain come)
