

# The Universe In You

I Mother Earth

It's just a thing with you  
A spacious place  
Infinite  
Dangerous  
Promising  
Black with white  
This night

Years of tears, emotion  
Held like so... inside  
Autumn  
Dogs  
Saturday  
Nervousness  
Blood  
Drugs  
Rage

And then it hit me  
Though I saw it coming  
Hard  
Sheer intensity  
The thinking in your thinking  
The feeling in your feeling  
Touched by a boy's  
Restless young erection  
You slam

Arms are open  
Eyes are wide  
What was out there  
Is now in you  
You drink it in  
Scratched the skin  
Bit the hand that hits  
You had your way

Wanting some of everything  
Living life  
Thinking it would shine  
Touched this stone  
And what'd you find?  
Humanity blind

A fiery red  
And glowing world  
Intoxicating... to a girl  
Straddling life  
In the atmosphere  
But it's just changing times  
And a few crazy people
