

Closure

I Prevail

Better off dead
You're better off dead
That's what you told me in my apartment
Threw the keys on the floor
You won't see me again

Forget me you said
Forget me you said
Erase any thought left of me in your head
It's hard to see straight when you only see red
Now I know in my heart it's goodbye to a friend

The damage is done, I'm already gone
Not much left can turn it back around
I've already found closure
Get out the car
You know that it's over
Thought you were the one
Guess that I was wrong
Gave you everything and you let me down
I've already found closure
Get out the car
You know that it's over

Another year older
Another step closer to asking myself
Did I ever really know her?
Took three to four years to finally get sober
But I pour one drink at the end of October

So forgive me you said
Forgive me you said
Erase all the bad things left in your head
The best of us break when we know we can't bend
I know in my heart it's goodbye

The damage is done, I'm already gone
Not much left can turn it back around
I've already found closure
Get out the car
You know that it's over
Thought you were the one
Guess that I was wrong
Gave you everything and you let me down
I've already found closure
Get out the car
You know that it's over

We build it just to break it
Love it just to hate it
All the time I wasted on you

You know that it's over

The damage is done, I'm already gone
Not much left can turn it back around
I've already found closure

Get out the car
You know that it's over
It's over
You know that it's over
