Deadweight

I Prevail

Cutting out the deadweight
Cutting out the deadweight

Let me take a second to get this through to you
It's time you get put in the rear view

Cut ties
There's nothing left to
Your lies
I'm seeing right through

Let me lay it out so it's clear for you to see
I'm done with the ones that don't believe

Cut ties
There's nothing left to
Your lies
I'm seeing right through

Yeah, I'm cutting out the deadweight
Yeah, I'm cutting out the ones who drag me down
All this negativity weighing down on me
All this negativity weighing down on me
Cutting out the deadweight

Admit it's so pathetic to think I'd carry you
I'd rather watch all the lows you sink to

Cut ties
There's nothing left to
Your lies
I'm seeing right through

Now that I can see what you're really all about
Shake my hand, turn your back and run your mouth

I laugh at all the time you wasted
You're bitter, and I can fuckin' taste it

So if you think that you can drag me down
It's gonna come back around

Yeah, I'm cutting out the deadweight
Yeah, I'm cutting out the ones who drag me down
All this negativity weighing down on me
All this negativity weighing down on me

Keep it up, motherfucker, I'll cut you out
Keep it up, motherfucker, I'll cut you out

Yeah, I'm cutting out the deadweight
Yeah, I'm cutting out the ones who drag me down
All this negativity weighing down on me
All this negativity weighing down on me
I'm cutting out the deadweight
