

Feel Something

I Prevail

I don't pray to God, but I did today
Just to take a minute of the pain away
'Cause I'm scared that I believe in nothing
Am I on my own?
I don't wanna break, but I did today
Guess I only have myself to blame
Sh-sh-should I just let go, I just let go?
I'm afraid to let go, afraid to let go

I'd do anything, anything
Just to feel something, just to feel something
Yeah, I'd give everything, everything
Just to feel something, just to feel something

Whoa, whoa, whoa
Feel something
Whoa, whoa, whoa
Just let me feel something

I just wanna feel, feel something
I just wanna feel
I just wanna feel
I just wanna feel, feel something
I just wanna feel, feel
Yeah, I just wanna feel, feel
I just wanna feel, feel something
Wanna feel something

Wanna feel something
Whoa, whoa, whoa
Feel something
Whoa, whoa, whoa
Wanna feel something
Whoa, whoa, whoa
I just wanna feel, just let me feel something
Whoa, whoa, whoa (just wanna feel)
Just wanna feel
Feel something
