

## Low

## I Prevail

I can't lie, I'm fallin  
The floor gave out again  
The walls are cavin in  
I've got these voices in my head  
I don't know why, I'm broken  
My world is sinkin in  
I've got these voices in my head  
I've got these voices in my head  
They tell me that I'm not enough  
Is it my time? Is it my time?

Even when I'm high I still feel low  
Voices in my head won't leave me alone  
I keep fallin, fallin  
Over the edge  
In over my head again  
I'm so damn low

I'm on my own, I know it  
The lights all start to fade  
The colors turn to grey  
I think I'm too far gone to save  
I can't let go, I'm holdin  
I feel it slip away  
I think I'm too far gone to save  
I think I'm too far gone to save

They tell me that I'm not enough  
The more they say the more they cut  
Is it my time? I've gotta let it go  
Is it my time? Is it my time?

Even when I'm high I still feel low  
Voices in my head won't leave me alone  
I keep fallin, fallin  
Over the edge  
In over my head again  
Even when I'm high I still feel low  
I'm hangin by a thread, don't know if I let go  
Cuz I keep fallin, fallin  
Over the edge  
In over my head again  
I'm so damn low

I'm doin everything I can to try and fix the problem  
This is how it feels when you hit rock bottom  
Yea when you hit rock bottom

Even when I'm high I still feel low  
Voices in my head won't leave me alone  
I keep fallin, fallin  
I keep fallin

Even when I'm high I still feel low  
I'm hangin by a thread, don't know if I let go  
Cuz I keep fallin, fallin  
Over the edge

In over my head  
I'm so damn low  
I'm so damn low
