

# Paranoid

I Prevail

Something isn't right  
I feel it in my bones  
Every time I look around it follows me home  
I think I'm paranoid

Something isn't right  
I feel it in my bones  
Every time I look around it follows me home  
And I get so stressed out  
With nobody here to listen  
When my head gets loud  
From the weight of this vision

All this emptiness inside  
I can't fill the void in my mind  
Sometimes I just wanna die  
Wish that I could tell you why  
Is it all inside my head?  
I just can't escape the noise  
Is it all inside my head?  
I think I'm paranoid, I think I'm paranoid  
(I think I'm paranoid)

Is it all in my head?  
I can't escape the noise  
Is it all in my head?  
I think I'm paranoid  
Take me to the edge  
Like hands around my neck  
Hangin by a thread again  
I think I'm paranoid

Something isn't right  
Think they start to notice  
Hear it in the night  
In and out of focus  
And I get so stressed out  
With nobody here to listen  
Got a head full of doubt  
From the weight of this vision

All this emptiness inside  
I can't fill the void in my mind  
Sometimes I just wanna die  
Wish that I could tell you why  
Is it all inside my head?  
I just can't escape the noise  
Is it all inside my head?  
I think I'm paranoid, I think I'm paranoid  
(I think I'm paranoid)

Is it all in my head?  
I can't escape the noise  
Is it all in my head?  
I think I'm paranoid  
Take me to the edge  
Like hands around my neck

Hangin by a thread again  
I think I'm paranoid

All this emptiness inside  
I can't fill the void in my mind  
Sometimes I just wanna die  
Wish that I could tell you why  
Is it all inside my head?  
I just can't escape the noise  
Is it all inside my head?  
I think I'm paranoid
