

# Self-Destruction

I Prevail

I said go away  
Take a moment  
Think it over  
I said not today  
Cause everybody sucks  
And I cannot relate  
And everything is fucked  
And I cannot be saved

Maybe that's because I'm on the way  
Took everything I had and threw it in the flames  
Watch it burn while they're steady taking aim  
I guess it came with repercussions  
I've been in it for a minute  
This is not up for discussion

Tell me that you hate me and I'll tell you that I fuckin' love it  
Tell me you'll save me and I'll tell you that you're savin' nothin'  
Tell me bout your demons and I'll tell you that I've got a dozen  
I'll take em with me on my path to self destruction

We go 24/7 till we're six feet deep  
Head in the clouds but our heart's concrete  
Burn the whole thing down while they got cold feet  
Yeah they can try to copy but they can't compete  
If you don't know the Devil  
Then you don't know me  
Yeah  
You don't know the Devil  
Then you don't know me

All the preconceived premonitions  
From people who never listen  
Creating all the division  
Yeah how can you live with yourself  
I'm the definition  
Of coming to a collision  
The old and the new edition  
The hero becomes a villain

So tell me that you hate me and I'll tell you that I fuckin' love it  
Tell me you'll save me and I'll tell you that you're savin' nothin'  
Smile at the thought of my demise on the day of judgment  
I pay the price on my path to self destruction

We go 24/7 till we're six feet deep  
Head in the clouds but our heart's concrete  
Burn the whole thing down while they got cold feet  
Yeah they can try to copy but they can't compete  
If you don't know the Devil  
Then you don't know me  
You don't know the Devil  
Then you don't know me

Now let me just tell you a little bit about the Devil first

Yeah

I am the one  
Alpha Omega, I won't be outdone  
My power's limitless  
You are like Icarus, you have been flying too close to the sun  
I'm on the way like a destination  
I clear your brain like a meditation  
I'll change your mind like a revelation  
So get out the way  
Get out the way  
I see what's mine and I'm gonna take it  
I do what I say, call it dedication  
I built an army into a nation  
Now karma is coming  
You can't escape it

We go 24/7 till we're six feet deep  
If you don't know the Devil  
Then you don't know me
