

## All In

## I See Stars

Hands on my face cause I'm all in, double zeros I am all in  
I'm just a kid come from nothing, I see your family got something  
Dragging your feet like it's nothing, all cross the board yeah  
I'm all in  
All cross the states yeah you fallin, we takin' risks yeah we all in

We disappeared from all the lights  
There was nothing left, so we went right  
Remember the days we were callin, no word when we needed you all in  
Mobbin' the house that we all in, we takin' risks yeah we all in

You say the water's under bridges but you know the bridge is burning  
The clock is tickin by the second, I know that time is turning  
I see the people you fuck with they holdin' a knife to your back  
Hands in the air cause they all in, we takin risks yeah we all in

Mobbin' the house that we all in, we takin' risks yeah we all in

I can tell that everybody in this room is really scared  
No one round me giving feelings like they really care  
I know my people at home yeah they be really there  
I know my people at home

Breathing in, I'm having trouble trying to bite my tongue again  
Breathing in, don't think that I can just bite my tongue again  
Who are you at heart, who are you at all, we'll see

I can tell that everybody in this room is really scared  
No one round me giving feelings like they really care  
I know my people at home yeah they be really there  
Mobbin' the house that we all in, we takin' risks yeah we all in

We takin' risks yeah we all in

You say the water's under bridges but you know the bridge is burning  
The clock is tickin by the second, I know that time is turning  
I see the people you fuck with they holdin' a knife to your back

Breathing in, I'm having trouble trying to bite my tongue again  
Breathing in, don't think that I can just bite my tongue again  
Who are you at heart, who are you at all, we'll see

Hands on my face cause I'm all in, double zeros I am all in  
All cross the board yeah we all in  
We takin' risks man we all in
