

SPLIT

I See Stars

Downward spiraling into the unknown
Spite is the death of it and then it's set in stone
So serious you're hardly letting go
So serious worth your weight in gold

(Split, split)
Split it up
(Split, split)
Split it up

Rinse and repeat
Round round we go

Are you willing?
Are you it takes blood, blood
Are you willing?
Am I?
I don't know
I feel seconds from
I feel seconds from
Disappearing
Disappearing

Downward spiraling into the unknown
Spite is the death of it and then it's set in stone
So serious you're hardly letting go
So serious it's worth your weight in gold

Are you willing?
Are you it takes blood, blood
Are you willing?
Am I?
I don't know
I don't know
I feel seconds from
I feel seconds from
Disappearing
From disappearing

(Split, split)
Split it up
(Split, split)
Split it up

The greatest stories ever told
Nothing but fool's gold
Where authenticity is sold
It's worth the weight
It's worth the weight
The greatest stories ever told
Nothing but fool's gold
Where authenticity is sold
It's worth the weight
It's worth the weight

(Split. split)
Split it up

(Split. split)
