

Existence is.. You're On Your Own

I Set My Friends on Fire

Why don't you turn on the news?
Look at everybody their so amused
Look at everybody their so confused
I tried to take your hand but you refused..

Miracles, everybody needs a miracle
But don't start going biblical
I didn't asked to be born into this world!
Make your mind up
Are you all signed up?
Hurry, hurry, hurry their behind us!
I know I told you not to worry but we're so fucked..
So fucked... but so in love

Look at the other side it's nice!
Look at the other side it's nice!
Hey, hey it's alright!
Hey, hey it's alright!
Look at the other side it's nice!
Look at the other side it's nice!
I, I.. can't die
I, I.. can't die

I don't want lose
Put yourself in my shoes
Look at what I'm going through
It never mattered to you

And you were fallen..
I tried to get you out, but you were stuck in the car
And you were all I wanted...
But you can't dodge the red dot
Once you've been spotted
By the way, if I was on a ship I'd jump off the plank
When you were being dry with me I wished it rained
I'm on the final level and I can't beat the game..

And it's over now..
You can go back from where you came..
And I'm not allowed.. to be brave

Look at the other side it's nice!
Look at the other side it's nice!
Hey, hey it's alright!
Hey, hey it's alright!
Look at the other side it's nice!
Look at the other side it's nice!
I, I.. can't die
I, I.. can't die
