I Set My Friends on Fire

Stick to the plan
Stay by your man
There's gonna be a suicide
The fucking enigma lied
No fortune yet
It's unfortunate
Left disproportionate in your eyes
Today the sun didn't rise
These things arrive with no explanations
I can't handle these visitations
Now when they take me don't act surprised
I'd rather be institutionalized..

I gotta get back,
Cause' I'm diminishing
And it seems like..
They're never finishing
And I'm light years away..
Starting with a whirring sound
Now things are never winding down..
Am I missing my vertebrae?

God is a bot,
Not what you thought..
There's going to be no "maybe"
Or "metaphysically" returning
To whomever it may be
Concerning..

I was subdued
Every chord chewed
The true meaning of solitude

Particles were educed
I was reduced
When you think it's over
You're reintroduced..

I gotta get back cause' I'm diminishing
And it seems like..
They're never finishing
And I'm light years away
Starting with a whirring sound
Now things are never winding down..
Am I missing my vertebrae?

How could possibly think that we related?
Do you know wtf I just impregnated??
And If this is a joke after all that's occurred
That's the sickest fucking joke that I've ever heard
I've got to somehow revert the molecular mass
I'm so tired of looking through the gelatin glass
(I'm so tired of looking through the gelatin glass).

The bitch just combusted
But there's an opening indented
Entered; sped ahead of time to find something I invented

Dialed back knob to see what what it does
Everything went back to the way it was.
