

# The "D" In Capitation

## I Set My Friends on Fire

My purpose is incommensurable  
Yet... counter amiable  
Don't count on me cause' I'm incalculable  
The damage reliably will be astronomical

Your looks weren't good enough to become  
Part of the electromagnetic spectrum  
I'm aiming a death ray  
With Tesla's paradigm  
While I'm bleeding from an ear drum  
Struck with the deliquium

Snippin' the frontal lobe  
Bedridden by a microbe  
Hydroplaning in a Citroen Gt  
Infringing theories of relativity  
I'm teething and I need to bite a rope or something  
I was being dissected, you were casually humming..  
Lately focus has been so distant  
To sharpen it, It would take a tachyon instant.

My purpose is incommensurable  
Yet... counter amiable  
Don't count on me cause' I'm incalculable  
The damage reliably will be astronomical

It must've been the dark matter I had  
I can't tell if I'm happy or sad..  
I just defied the laws of physics  
And I believe I just bursted my appendix

If the unproven fails  
You'll see it in the chem trails  
Bitch, I know it was hard to see  
Me being dragged off by the cdc  
55,000 abs and it was getting madder  
Engrossed at the topmost  
Of the double helix ladder  
5 hydroxytryptamine  
How come you never say what you actually mean?

Getting ready to implode  
Because my programmer purposely,  
Disabled my advance code  
But when it is found  
I'll be that writers block in that dark alley way  
Waiting for you next overstep on the ground

How much can be taken  
Before an acousma will appear?  
Please just snap my neck  
I am being eaten alive here

Not sure If I really want to elucidate,  
If we get a signal are you sure you want to translate?  
What if they suggest its best that we evacuate?  
I think I might just stay home

If she's down to capitulate  
Yeah, you know it feels good  
To do something you shouldn't  
Got me feeling bad...  
Ass.
