

Some Say It's Your Loss

I the Mighty

Stability over chemistry,
well, it only works for so long, love,
and I don't know if I'll still be waiting.
Our love was killed by an industry with the reputation
for such,
but I can't leave it. More or less, I'm stuck.
I'll never understand how you so simply turned it off.
It changed my perception of everything we were.
Of course, it always helps to run right into someone
else's arms.
You don't feel the sting when there's a new spark.

You will never escape my love, you know.
you'll never know how good we could be.
I will always feel we were cut short.
You'll never know.

You'd think by now I'd be void of inspiration,
but you keep crawling in my ears and out of my mouth.
I'll purge myself with lyrics and intoxication.
The best therapy I've found.

You will never escape my love, you know.
you'll never know how good we could be.
I will always feel we were cut short.
You'll never know.
Just when I thought I had finally found the real thing,
you got cold.
You will never escape my love, you know.
You'll never know.

I could make amends, if this made perfect sense.
(at first I felt so weak, I fell right to your feet)
If timing played a part, then how much was your heart?
(I got myself back up, your words are not enough)
If this is how it ends, I can't wait to begin.
(It's hard to let you go, we both will never know)
Well, some say it's your loss.
That nothing's all I've got.
(Without those miles apart, if I'd still have your
heart)
and you can't take it back.

You will never escape my love, you know.
you'll never know how good we could be.
I will always feel we were cut short.
You'll never know .
Just when I thought I had finally found the real thing,
you got cold.
You will never escape my love, you know.
You'll never know.
