

Doobies

IAMDDB

IAMDDB...

Now keep it G of course...

The only way, the right way, the real way

Keep it G, that's what I say

Keep it G, I told her that's what I say

And if you can't I suggest you keep movin' away, away

That's what I say

Keep it G, I told her that's what I say

This is real life the only way we play

The right way, the real way, yeah

Used to come play but now I run things in my own way

Never looking back cause I don't need to I'm not lonely

No way, it's too late no foreplay

Cause I just sit inside smoke my doobies get high and look in my mind

Normally, constructively I can find some knowledge in my soul hidden in my heart

Pouring out my heart his will never add up to the price I pay when I speak my mind

We keep it G, I told her that's what I say

And if you can't I suggest you keep movin' away, away

That's what I say

Keep it G, I told her that's what I say

This is real life the only way we play

The right way, the real way, the only way, yeah

Take me through your mind, take me through your mind, let me

See what I can find, see what I can find, cause I

Really wanna know [?]

Cause I just sit inside smoke my doobies get high and look in my mind

Normally, constructively I can find some knowledge in my soul hidden in my heart

Pouring out my heart his will never add up to the price I pay when I speak my mind
