

Moonlight

Talk to you
Talk to (through) you
Talk to you
Talk to (through) you

Talk to the moon (to the moon)
Thinking about you, what you do (what you do)
Even though I know you're lying
It feels true (ah ooh ah ooh ah ooh)
I can't stop thinking about you
Either way I lose

Pay the price, so I bought it
Did the nights, you've exhausted
See the truth, yeah I saw it
616 in the morning
Pull the henny 'cause I'm parched
Apple Ciroc on the rock
Taking my time, yah I take my time
Taking all my time 'cause I feel alright

Talk to you
Talk to (through) you
Talk to you
Talk to (through) you

Looking at the moon
Thinking can you see it too
Three stars aligned
Anywhere you go, it's never hard to find (never hard to find)
I see the stars and I think of you
Had to let you go but my dreams came true

And as of lately
I've been wondering
Am I sick or am I tired of this shit
Talking to me like you ever knew the real me
You ain't shit, little bitch
I adored you
Gave you everything plus more
Where's the henny, it's all gone
Like my soul
Pour me more
Pour me more

And that's why I talk to the moon (to the moon)
Sometimes, sometimes
I feel alright, alright

Talk to you
Talk to (through) you
Talk to you
Talk to (through) you

Talk to you
Talk to (through) you
Talk to you

Talk to (through) you
