Heyyyyyy
A little song
To keep you warm
A little vibe
To keep you calm
A little voice
To soothe your- soul
A little song

A little vibe
To keep you calm
A little voice
To soothe your- soul
Sekklee
Sometimes y'affi sekklee
Smoke trees
Relax
N breathe
Clear your mental
Mmmhmmmm
Petals
Don't pick off the petals
Let the roses -bloom right through you

Mmmmmhmmmm
I take a little piece of herb
And a little piece of love everywhere I go

Ease my mind
Cool me down cool me down
Til I'm calm
Make me feel at home
Protect my energy good vibes around me
No earthly things could ever satisfy me
I need a love so secure and pure
That's the only thing that sets me free

A little song
To keep you warm
A little vibe
To keep you calm
A little voice
To soothe your- soul
A little song
To keep you warm
A little vibe
To keep you calm
A little voice
To soothe your- soul
Let me heal you
Mela
Melody
Melody mellow me out (huh)
Jealous
They got Jealousy
They cannot figure me out
Some people feel rain

And the others get wet

Open your eyes and look within
Are you the change or do you fit the mould
It was Iamddb and Mint leaf tea
I brought Manuka
She THC
Took me to cloud 9
Made me soar
(We) We talked for a while bout
How our uncles rasta
Got her cook to cook me Rasta pasta
She had all the bad tings round me
I feel golden, golden
Feel good
A little song
To keep you warm
A little vibe
To keep you calm
A little voice
To soothe your- soul
A little song
To keep you warm
A little vibe
To keep you calm
A little voice
To soothe your- soul
Let me heal you
