How bitter sweet this life is
Take me by suprise
And fuck me with your mind games
One day its paradise
Day two we're living nightmares
I won't sleep tonight
Feels like the time is on my side

Oooooo

Lose my mind and see my soul
Kill me ego hang my coat
Going round in circles tryna' find myself I think I'm home

Fly free
Coast the skies unwind release and let go
Unwind release and let go
Ooooo
It doesn't faze me
Reach the stars and let the magic unfold
Reach the stars and let the magic unfold

One thing yo should know this ain't never personal
That's why I just take my time cus' I don't wanna lose control
Free my spirit let it show
Turn my demons inside out
Grove and let it move pour up the shot and let the vibe break loose

Oooooooooo

Lose my mind and see my soul
Kill me ego hang my coat
Going round in circles tryna' find myself I think I'm home

Fly free
Coast the skies unwind release and let go
Unwind release and let go
Ooooo
It doesn't faze me
Reach the stars and let the magic unfold
Reach the stars and let the magic unfold

God is a woman
A woman is love
Love heals
And healing happens when you love who you are
Appreciate the sorrows man
Because they build you up into being who you were destined to be
I love you black woman

Fly free
Coast the skies unwind release and let go
Unwind release and let go
Ooooo
It doesn't faze me
Reach the stars and let the magic unfold
Reach the stars and let the magic unfold

Fly free
Coast the skies unwind release and let go
Unwind release and let go
Ooooo
It doesn't faze me
Reach the stars and let the magic unfold
Reach the stars and let the magic unfold
