

## Sit Back

IAMDDB

Mmm... ATG music

Sit back, relax, and take your time  
Ain't no pressure with the world  
They want diamonds, I want pearls  
I sit back, and I observe

They say I'm feisty  
How you decide that?  
Kind of bitch that don't say please  
I feel like I'm miles away (miles away)  
I feel like I'm miles away  
I'll take a trip to outer space  
I don't mention loyalty with bitches, I'm worth more than that  
Leaders never follow, mixing all my sorrow so the sun can shine  
tomorrow  
Light can guide the dark  
I know light can find the dark

Sit back, relax, and take your time  
Ain't no pressure with the world  
They want diamonds, I want pearls  
I sit back, and I observe

Think about a piece without you  
Call it quits so you can talk shit  
If it's meant to be, I'll always find you  
If it's meant to be, I'll always find you  
If it's meant to be, I'll always find you (if it's meant to be,  
I'll always find you)  
If you would just let your guard down  
If you would just let your guard down  
Guard can make you starve  
Everything you want is at the door  
If you would just let your guard down  
If you would just let your guard down

Sit back, relax, and take your time  
Ain't no pressure with the world  
They want diamonds, I want pearls  
I sit back, and I observe

Echo, so I  
Echo, so I  
Echo, so I sit back, I observe
