

# Ur Highness

IAMDDB

Hello, hello?  
Is anybody home? (IAMDDDB)  
Hello, are you there?  
'Cause I'm outside (it's cold)  
Feeling all this cold inside  
I don't like, nah, I don't like

I've, been feeling so damn high all the time  
Is that a curse or is it, alright?  
'Cause I've been up all night  
Rolling round with the tie that I didn't even tie, oh my

Feeling like it's cloudy, feeling all these energy's surrounding my soul  
Dragging me to darkness, not today not my [?] please take caution  
I don't know, if I should stay or go? If I should stand or fall?

Not today, don't bother me today  
Don't want no pictures or cameras today  
Leave me alone I want to find myself, today  
It's that day, the baggage is in the pass, yes today  
We no fight no more cah we communicate, (but just not today)

I've been feeling so damn high all the time  
Is that a curse or is it alright?  
I've been up all night  
Rolling round with the tie that I didn't even tie, oh my

Can you believe it? He didn't think that I was serious, oh my god  
I'm looking in the mirror, I don't see what you see in the pictures,  
no  
Take over, I'm gonna catch a body I promise you, I don't know her  
I'm trying my best to keep composure but I swear push me and I'll come and murder  
You never heard her? Flow so sweet make you haffi learn-a  
You wanna take her around the world, show her the globe and take her  
to places she never heard of  
Never heard that I should come first  
Never felt a wave like this, its over  
IAMDDDB, pass me my blunt, no soda only water

Like for real (for real)  
Who drinks soda? (soda?)  
We drink water  
Mermaid season, ooh, ooh

It's mermaid season, swimming in the ocean blazing  
All my fellow Pisces, all my signs and my mister  
No, no teasing  
He wants me to sit down and just get friendly with it  
I might just get friendly with you
