

# Buy Her Everything

Iamsu!

[Iamsu!:]

You made a career off my old flow  
Teaming up against me, that won't help though  
Pray she never login to my iCloud  
Cause it's over if she ever see my cellphone  
In the music, tryna beat my boys now  
I will not forgive if I don't have to  
I will never go back to the old Su  
Got some morals in my life I gotta hold to  
Wait, I took your advance and went and bought me an estate  
She used to eatin' fast food, with me she eatin' steak  
[?] but won't say it to my face  
I'm not an assistant, I never will relate  
I got a bigger influence  
Like a pair of new Timberlands, your boy is rebooted  
Speak your lies on me, I'll never have to refute it  
Cause the people know what's goin' on  
We don't have to make a song, it's life

Yeah I know that life can be a bitch, but I'mma buy her everything and rub her feet, woah, woah, woah  
I hear all the comments that you make about me, but I will never lose sleep, no, no, no  
Wake up in the morning grab my phone and make a play before I even brush my teeth, woah, woah, woah  
It was never easy and it was never sweet, got a practice what I preach, woah, woah

I can never stop, the game need me  
I don't got no time to watch the TV  
Every time I drop, I be on repeat  
Whole body dripping gold like CP  
Three-O, Steph Curry beast mode  
Just like him, I'm goin' crazy at the Oracle  
Just like him, I'm never goin' have to make a pay cut  
Just like him, I need a check before I lace up  
Stop, hold up, let me go and get my head right  
Drop, fuck around go platinum with the sound like  
Roll, dice, if I buy that girl a round of flights  
Sike, only in your dreams, baby but it sound nice  
I've been eating better, grilled chicken with the brown rice  
Young Bari with me, even though I'm on my own hype  
Need an elevator in my crib, I got to many flights  
Frequent flyer mileage like a bitch, I took too many flights

Yeah I know that life can be a bitch, but I'mma buy her everything and rub her feet, woah, woah, woah  
I hear all the comments that you make about me, but I will never lose sleep, no, no, no  
Wake up in the morning grab my phone and make a play before I even brush my teeth, woah, woah, woah  
It was never easy and it was never sweet, got a practice what I preach, woah, woah

[Skipper:]

Hearing what they say about a nigga, I'm just tryna get these figures bigger picture, woah, woah, woah

Hopping off the plane, ain't nobody in my lane, real niggas never change, no , no, no  
Niggas wanna talk, but never say shit  
She just want my time, she on the wait list  
Got it on my own, I had to make shit  
Now I'm plotting on the Rollie with the face lift  
Been getting bitches since side kicks and tmails  
Gas is similar to a V12  
Let her have a sip, she coming back for the refill  
Yeah it's rare to come across a nigga with these skills  
I just kill  
Presidential nigga at your neck just like a bow tie  
Sudy hit a triple, I'mma clean it up in no time  
Praying to the Lord that he protect me from these low lifes  
I can fuck with them because they switching, playing both sides, damn
