

I be, I be  
The man 'round here  
The mayor can't do it like me, like me  
My diamonds are clear  
'Bout to put this shit in gear, ooh  
Now we just getting started  
Big racks on me  
I buy it if I want it, for real  
Now we just getting started  
Big racks on me  
I buy it if I want it

Black benz with the black seats  
I can't hit the mall no more 'cause they harass me  
They like "Su how you get it?" that's what she ask me  
All cash, Uncle Sam never touch me

I call her, Milk Marie, she spoiled  
Ice on me, I'm froze  
Best believe she chose  
Yet, still I need my dope  
I'm on 10, eyes glazed like a donut  
Imma walk inside the club but I won't throw nothin'  
I'm a pea, I'mma crack her like a cold one  
Got utensils and the green, baby roll up

I be, I be  
The man 'round here  
The mayor can't do it like me, like me  
My diamonds are clear  
'Bout to put this shit in gear, ooh  
Now we just getting started  
Big racks on me  
I buy it if I want it, for real  
Now we just getting started  
Big racks on me  
I buy it if I want it, for real
