

# Real Nice

Iamsu!

Real nice, just how I need that  
Right in front of me  
Let me see that  
You got everything I need  
I need, I need, I need  
Got it on full display  
The only girl on my brain

Bentley truck ride, I've been outside  
Ice out the Rollie, I don't got time  
'Cause I ain't see the time, I can lead the blind  
Need another truck, way too many problems  
I ain't switchin' up, I'ma stay on this side  
You stay over there 'cause we don't play on this side  
'Cause you switch it up way too much  
Bet you can't stay with us  
Back where you came from  
I got my game from the OGs  
And they told me the truth  
Titties, hoes, I'ma lose  
She know I got more styles in the group  
My bros rich like their last name aloof  
Bustdown in my coupe  
All about my business, briefcase and the suit  
We just warming up but I ain't shooting hoop  
AD, I got the juice, I swear

Real nice, just how I need that  
Right in front of me  
Let me see that  
You got everything I need  
I need, I need, I need  
Got it on full display  
The only girl on my brain

I did a 360 in my drop on purpose  
Doing shows 20K a pop, I'm murking  
Pulling up on your block and I do not get nervous  
House way in the hills so I do not get service  
I need the Bentayga with the ostrich interior  
I remember days when I put the water in my cereal  
Really can't believe I'm still here, it's a miracle  
I won't let a fuck nigga change my [?]

Real nice, just how I need that  
Right in front of me  
Let me see that  
You got everything I need  
I need, I need, I need  
Got it on full display  
The only girl on my brain
