

# Shang Hai

Iamsu!

She say she's done with me but it's not the last time  
I love talkin' baseball - America's past time  
Now I got the wave, they searchin' all day for me with a flashl  
ight  
Big dough watch the cash fly  
Whole world off my last hype

I think she's from Shanghai  
I always keep her in mind  
Elementary how they stand in line  
I'm the teacher today I got time  
I think I know too much  
But I never show too much  
I remember eating frozen cups  
Last time the boy seen me he froze up

She say she's done with me but it's not the last time  
I love talkin' baseball - America's pastime  
Now I got the wave, they searchin' all day for me with a flashl  
ight  
Big dough watch the cash fly  
Whole world off my last hype

Make her walk a fine line  
I treat her like fine Chine  
VVS all in my eyes  
Tell her look on the bright side  
And she knows just what I like  
Never trip keep your shoes tied  
Spread love don't abuse life  
View yours how I view mine  
I think I'm one of a kind  
And I have a special mind  
It took a while just to get it right  
Spread my wings and watch me fly

She say she's done with me but it's not the last time  
I love talkin' baseball - America's past time  
Now I got the wave, they searchin' all day for me with a flashl  
ight  
Big dough watch the cash fly  
Whole world off my last hype
