

Side by Side

Iamsu!

Side by side, we ride to the end of the road
Side by side, we both can have what you want, be what you want
Side by side, we ride to the end of the road
Side by side, we both can have what you want

You keep giving me signs, bringing me closer
I keeps feeling the vibe, that's my emotions
I'm still willing to climb, remain focused
The still want me to fall, like I ain't noticed
I can't stop now, I'm too close to it
Up and downs, we all go through 'em
Broke through the concrete, grew a rose through it
I can't say I'm at the top, but I'm close to it
Had my back against the wall, had to tap in
I was lost on the road with no map then
Had to right my ship, I'm the captain
I can't bite my lip, too much to hold in
A grown man, grown and I never been so lonely
Miss my grandmama, wish that she could hold me
Everything you told me, I listened like Alexa
He looking down on me, tell 'em to protect us
'Cause it's cold outside and I got no coat on
Tryna find my way back home

Side by side, we ride to the end of the road (End of the road)
Side by side, we both can have what you want, be what you want
(What you want)
Side by side, we ride to the end of the road (End of the road)
Side by side, we both can have what you want (What you want)

Side by side, we ride to the end of the road
Side by side, we both can have what you want, be what you want
Side by side, we ride to the end of the road
Side by side, we both can have what you want
