

Throwin It

iamsu!

Tryna live in the fast lane
She wanna ride with a product in between her legs
I wanna try it
Its a top spot in the game
I wanna keep it
Repping HBK the gang
Hoe pledge allegiance

I got Nic Nac on the beat
I'm going platinum
Mixed Jameson with the Gin
Forgot what happened
Made a million dollars of a rap
I'm independent
Know that if you really wanna get it
You gotta spend it

You gone see me in H-town
See me in New York
With one of them bad things
I thoroughly enjoy
She wanna hang with the big leagues
Turn up with the real boys
You come to my concert and instantly get moist

No matter where I go
Its all the same, it never change
No matter where I go
And it's a shame
They never change
All these girls be throwin it
All these girls be throwin it
These girls are all the same

You say usually them dudes is all wack
Got a point to prove
I'm improving all that
Bet I hit them spots
Get her dripping all wet
Treat me so good
Got a text and call back

Let's get off that
Lets get on some new shit
I be on my wave, on my wave
Like cruise ships
Niggas rap for fun, I get paid to do this
When I play the game, I obey the rules man
Swag out on 10
I got D for Offense
She be popping Molly and oxytocin
They be choosing, gotta use precaution
Cause she be kicking with rap dudes too often

No matter where I go
Its all the same, it never change
No matter where I go

And it's a shame
They never change
All these girls be throwin it
All these girls be throwin it
These girls are all the same
