

# Too Many Times

Iamsu!

How many times have I showed you I'm doubted  
How many times have I run through these thousnads  
How many times have these niggas talked about us  
How many times, how many times  
Too many times, too many times  
Too many times, too many times  
How many times have I run thumbed through these thousands  
How many times have these niggas talked about us  
How many times have I dripped with no stylist  
I'll be outside with them pissin' rottweilers

I be outside with 'em pissin' rottweilers  
How many times I bossed up, they can't count it  
I'm up in the Bay, I got Su with me  
Drip cold, they don't know what to do with it  
Like scammers, they gon' check my phone for the answers  
Heard I fell in love with a dancer, now you throwin' temper tantrums  
I be in the streets like, "Ooh, yeah"  
Give a nigga chance, but we did too many times  
They know my face, I can't do too many crimes  
Who I'm gon' trust, then they tell too many lies  
Like how many times

How many times have I showed you I'm bout it  
How many times have I run through these thousnads  
How many times have these niggas talked about us  
How many times, how many times  
Too many times, too many times  
Too many times, too many times

Yeah, yeah, too many times  
I was clean, but now I'm back on the spy  
Hands on my chance of a bag, I'ma buy  
I match my fit with which whip I'ma drive  
Turned up my set, do my dip, then I slide  
Ain't from my wood, off the zip, we get high  
Get what we get off the rip to get by  
I can't do shit off the strength, I need mine

How many times have these niggas talked about us  
How many times have I run through these thousnads  
I've been outside with them pissin' rottweilers

In the Vets and Hell Cats  
Nigga, mount up
