

Conflict Medication

IAMX

Bye bye black dog
Hello moment
All you see are enemies
When you're spiraling running on the hamster wheel

Bye bye black dog
Hello beauty
All the talk, all the shock
That's dividing us turn 'em into something real

Can't you feel the wind, hear the birds?
No words
No conflict
Ah ha ha medication
Ah ha ha so fierce is our world

Bye bye black dog
Now I remember virtue
Lead the heart back online metanoia
From coming down, to coming home

Bye bye bye black dog
I snuffed you out with love
You took the bait
I'll create a new philosophy
Stronger than I've ever been

Can't you feel the wind, hear the birds?
No words
No conflict
Ah ha ha medication
Ah ha ha so fierce is our world

So fierce is our world
Oh conflict
Medication

I know the conflict that you seek
Is just the medication you need
So fierce is our love
So fierce is our world

So fierce is our world
Oh conflict
Medication
