

## Everything Is Burning

IAMX

One, two, three I force myself to be still  
Haunted by hate inseminated by greed,  
Corruption and neoconservative pilgrims  
Your alchemy, alchemy can't help me when  
Everything is burning

I dream gunfire but I'm not sleeping  
The bloodshed, the lies  
Everything is burning

In this heat I believe there is no future  
Control and fear killing queers, Santa Claus, dictators  
I was God, I was love, now I'm bleeding  
Oh alchemy, alchemy can't help me when  
Everything is burning

I dream gunfire but I'm not sleeping  
I fear outside  
Everything is burning
