IAMX

Hold me like you mean it  
Tonight I need to feel your skin on my skin  
Often I forget you're this being  
I get lost alone online, stalking humanity

The world is collapsing  
The world is indifferent

Can you feel it  
The communication  
Inside this room?  
We are infinite

So let the hurricane come blow me down  
Down to the mountain where I will scream to be found  
The sky has opened up and now I'm overcome  
With all the information, the universe, the atom

The world is collapsing  
The world is indifferent

Can you feel it  
The communication  
Inside this room?  
We are infinite  
Can you feel it...
