

Fault Lines

IAMX

The fractures of our lives are becoming fault lines
Cracks so deep I don't even recognize us

The nightmares we created became our realities
Self-fulfilling prophecies

Behold the disease of things unknown
The fanatics are winning and I wanna go home

The fractures of our lives are becoming fault lines

There's a rabbit in the field
And I wanted to chase it
Out of my head
Into the nature
(Behold the fault lines)

There's a volcano in my heart
And I don't want to waste it
Psychotic shift
Infinite energy
(Behold the fault lines)

The fractures of our lives are becoming fault lines
Resistance cowers to futile

Compelled to understand, compelled to communicate
Muted mouth, manic restraint

Behold the disease of things unknown
The fanatics are winning and I wanna to go home

The fractures of our lives are becoming fault lines

There's a rabbit in the field
And I wanted to chase it
Out of my head
Into the nature
(Behold the fault lines)

There's a volcano in my heart
And I don't want to waste it
Psychotic shift
Infinite energy
(Behold the fault lines)

Oh, the fault lines
(Behold the fault lines)

Oh, the fault lines
(Behold the fault lines)
