

Neurosymphony

IAMX

Hello meet the vices in me
Now you understand
I got locked in a perfect neurosymphony
My own emotional wasteland
I know you're scared, but I am right here
Take my hand
I know you're scared, but I am right here
Take my hand

These are the nights of the hunter
Take the scythe and cut them down
Bathing in the blood to feel the rapture
Sometimes my heart gets so wild
I want to rip it out

In neurosymphony we align
Feel the collective
Feel our vital signs
And I need you to believe the vices in me
Neurosymphony
Neurosymphony

I know you're scared, but I am right here
Take my hand
I know you're scared, but I am right here
Take my hand

Will you bring me off in the boulders
I love the filth with the indifference of nature
Relax my pulse, help me focus
Erotic, Graphic
Oh that's the spirit

In neurosymphony we align
Feel the collective
Feel our vital signs
And I need you to believe the vices in me
Neurosymphony

I know you're scared, but I am right here
Take my hand
I know you're scared, but I am right here
Take my hand

Neurosymphony
Neurosymphony
