

North Star

IAMX

4AM

Raging hard

And I feel like I'm a child again

Neon streets

I'm so high

I can't quiet my bionic mind

North star, I need you to guide me home

North star, I need you to guide me home

I need help

I've done bad things

And I cannot make them disappear

I want flesh

To bring me happiness

'Cause I feel nothing

North star, I need you to guide me home

North star, I need you to guide me home

It's the blue hour again

In the world there is a horror of plagues

Do you still love me?

Stand tall, shoulders back, feeling brave

Who am I?

Who am I?

There's dirt under my feet, a breeze across my cheeks

Scorpions in the sand

I can feel them

Reprogram, repeat

Reprogram, repeat

I am real, I am good

I am real, I am good

North star guide me home

North star
