

# The Ocean

IAMX

Sumri Hallar hausta fer  
Heyri snjallir ýtar  
Hafa fjallahnjúkarnir  
Húfur mjalla hvítar

Girnast allar elfur skjól  
Undir mjallar þaki  
Þorir varla að sýna sól  
Sig að fjallabaki

We cannot fight the tide

We feel the force of the waves  
The outrage and vanities  
Breaking on the shores  
Of our dignity  
Now we need to show the raw  
Within, without  
The cracks in our armor  
Just let them bleed out

Can we not double down  
Follow the crowd of insanity  
Judging humanity as toxic and weak

Let it go  
To the water  
We shake with the power of our ancestors  
Throw our futures into the ocean  
Cast out anger  
Cast out fear  
Let the gods of the deep purest love appear  
Throw our futures into the ocean

Artificial innocence  
Despair borne dissonance  
Hunting down anything  
When we have everything  
Logical trauma  
Mothers, daughters  
Throw your futures  
Into the water

How can we reign in our insanities?  
Labeling humanity as toxic and weak

Verður svalt pví veðri er bryett  
Vina eins og geðið  
Þar sem allt var áður heitt  
Er nú kalt og freði
