Win It All

Ian Hunter

In the morning, when you get up
Free your mind of blame
It's destructive, it can hurt you
And you've got to start again
When all hope's gone and your back's to the wall
You can win this, you can win this
You can win it all

When you feel the pressure mounting
Look for things that'll make you smile
Sometimes questions have no answers
Sometimes answers take a while
Into each and every life a little rain's gonna fall
But you can win it, you can win it
You can win it all

For we can't see the future and we can't see the end
But you can beat this, you'll defeat this
You can win this and then...

You'll be older, you'll be wiser
And you'll be easier in your mind
And when the morning comes to get you
You can leave the past behind
Some things just happen, it ain't nobody's fault
You can win this, you can win this
You can win it all
