Blazin'

Ian Munsick

I was a one shot, two shot, three shots in
One for me, one for her, one for why'd it have to end
Yeah that bottle of Bulleit wasn't healing my heart
It's just making it worse
Then that blonde-hair long-legged shot in the dark
She fixed me up where it hurt

You came in with them guns blazing, blue eyes looking
Like the sun breaking neon clouds
One look and I was done wasting my time chasing
Anything that ain't you around
The way you cold blooded slow strutted those swinging doors
Took a man's plans and made 'em yours
When you came in with them guns blazing

I was hands up bottle down rock bottom bottomed out
It's looking up from here
If it's a one time, one kiss, one dance and then
Like smoke, you disappear

Girl I'm glad that you hit me

When you came in with them guns blazing, blue eyes looking
Like the sun breaking neon clouds
One look and I was done wasting my time chasing
Anything that ain't you around
The way you cold blooded slow strutted those swinging doors
Took a man's plans and made 'em yours
When you came in with them guns blazing

You were making high noon outta midnight
Like you came from the Wild West
When that sawdust settles at the end of the night
Even if you ride off in the sunset
Girl I'm glad that you hit me
Yeah I'm glad that you hit me

When you came in with them guns blazing, blue eyes looking
Like the sun breaking neon clouds
One look and I was done wasting my time chasing
Anything that ain't you around
The way you cold blooded slow strutted those swinging doors
Took a man's plans and made 'em yours
When you came in with them guns blazing
You came in with them guns blazing
