

Drink Around

Ian Munsick

I can't drink around, drink around, drink around you

I can drink around noon, drink around 5
Drink around any time of day
I can drink around a fire, drink around a truck
Drink around a stocked-up lake
I can drink around a hundred
When I get around a honky tonk band
But tonight, I'm in trouble 'cause I got one in my hand

I can't drink around, drink around, drink around you
When the neon hits those eyes
'Cause I know you know what we're gonna do
When the whiskey melts that ice
When you're looking like that and we're knocking 'em back
Girl, we can't drink around the truth
You can't drink around, drink around, drink around me
And I can't drink around you

Starts with a shot, leads to a
"Hey, bartender, put hers on mine"
Ends in a last call, let's not call it a night
In a boots-by-the-bed sunrise
We put the hang in the over
And the broke right back in this heart
Can't blame it on the booze and I sure can't blame it on the bar

I can't drink around, drink around, drink around you
When the neon hits those eyes
'Cause I know you know what we're gonna do
When the whiskey melts that ice
When you're looking like that and we're knocking 'em back
Girl, we can't drink around the truth
You can't drink around, drink around, drink around me
And I can't drink around you

Pull them bottles off the shelf, pour 'em down the sink
Somebody help me out before it's too late

I can't drink around, drink around, drink around you
When the neon hits those eyes
'Cause I know you know what we're gonna do
When the whiskey melts that ice
When you're looking like that and we're knocking 'em back
Girl, we can't drink around the truth
You can't drink around, drink around, drink around me
And I can't drink around you
Can't drink around, drink around, drink around me
And I can't drink around you
