

## Know You

Ian Munsick

People don't love like they used to do they now  
Starin' at your face in a glass frame 50 years down  
I wanna love the kind of love that my grandma talked about  
So if you're talkin' 'bout walls let's talk about knockin' 'em  
down

I wanna know you, so close nothin' in between  
I wanna know you, so go ahead and tell me everything  
I wanna know you, like the street corner singers know all them  
strings  
I just wanna know you, nothin' in between

Closer than my hands in the pockets of your ripped blue jeans  
Closer than a needle in a groove make the record sing  
Closer than my back to the ropes like fire no smoke  
Like soldiers stuck in battle know their letters from home

I wanna know you, so close nothin' in between  
I wanna know you, so go ahead and tell me everything  
I wanna know you, like the street corner singers know all them  
strings  
I just wanna know you, nothin' in between  
Nothin' in between  
In between

People don't love like they used to do they now  
So if you're talkin' 'bout walls let's talk about knockin' 'em  
down

I wanna know you, so close nothin' in between  
I wanna know you, so go ahead and tell me everything  
I just wanna know you, like the street corner singers know all  
them strings  
I just wanna know you, nothin' in between

I just wanna know you
