

Neon Brightside

Ian Munsick

Bad news, hearts broken
Good news, there's an open sign
Yeah she might of said goodbye
But at least she said it Friday at 5

You can look at this however you want
Either see the rain or the rainbow they just turned on

Imma keep the happy in this happy hour
Imma be the life of the party in this party crowd
Ain't seen my buddies in forever and the beers are tasting better
'Cause they've paid for every round since I sat down
I might be broken hearted
But I'm just getting started
Finding good in her goodbye
And Imma keep on the neon brightside

Downside, she ain't calling
Upside, I ain't gotta go home
And I've made it through the worst
So this hangover I'm working on
Won't last long

Losing her ain't as bad as you think
You can turn a reason to cry into a reason to drink

So Imma keep the happy in this happy hour
Imma be the life of the party in this party crowd
Ain't seen my buddies in forever and the beers are tasting better
'Cause they've paid for every round since I sat down
I might be broken hearted
But I'm just getting started
Finding good in her goodbye
And Imma keep on the neon brightside

Imma keep the happy in this happy hour
Imma be the life of the party in this party crowd
Ain't seen my buddies in forever and the beers are tasting better
'Cause they've paid for every round since I sat down
I might be broken hearted
But I'm just getting started
Finding good in her goodbye
And Imma keep on the neon brightside

Girl don't worry bout me
I'm right where I wanna be
Soaking up the smoke and the lights
And Imma keep on the neon brightside
