

# Burning Down The Prairie

Ian Noe

Burning down the prairie  
Got a handful of river cane  
Burning down the prairie  
Got a handful of river cane  
I'm just sitting up on this hillside  
Praying to God it doesn't rain

We've been healing from a winter  
That brought us more than sleet and snow  
We've been healing from a winter  
That brought us more than sleet and snow  
You know someone out there somewhere's  
Been cutting down the buffalo

Well, we followed bloody footprints  
For many miles along the creek  
Yeah, we followed bloody footprints  
For many miles along the creek  
Well, someone out there somewhere's  
Been walking with two wicked feet

And daddy's on a rampage  
Late at night I hear him crying  
Daddy's on a rampage  
Every night I hear him crying  
He said someone out there somewhere's  
Been stalking like a mountain lion

And I can see 'em coming now  
Covered up in bone and hide  
Yeah, I can see 'em coming now  
And they're covered up in bone and hide  
Burning down the prairie  
Raving mad and wild-eyed
