

Bring It On

Ian Thomas

I don't wanna be
Another wannabe
I wanna be a true star
- wanna be a brighter me

I don't wanna do
What I don't like to do
I wanna do the right thing
- wanna do things that feel true

If you're frequency's on MC B
You'll give away the lead
You'll end up dancing painfully
To someone else's beat

So bring it on
Bring on the life
The life worth living for
The breathless ride
So bring it on
Bring on the life
My energy explodes
Like dynamite

I don't wanna die
Just like a firefly
I wanna be a firebird
- wanna soar the endless sky

I don't wanna burn
For someone else's gain
I wanna sail my own ship
- wanna live it up & learn

If you play the game by their rules
The game will be a bore
You'll join the club of passive fools
When you've got more in store

So bring it on
Bring on the life
The life worth living for
The breathless ride
So bring it on
Bring on the life
My energy reloads
With super light

If you're frequency's on MC B
You'll give away the lead
You'll end up dancing painfully
To someone else's beat

If you play the game by their rules
The game will be a bore
You'll join the club of passive fools
When you've got more in store
