Darkside

iann dior

I can't get you out of my head
Can't forget all the words that you said
'Cause you never meant what you said
Bitch you'll love me more when I'm dead
You only love me on the dark side (The dark side, the dark side
)
I can't get you out of my head
Bitch you'll love me more when I'm dead

How did you ever get so heartless?
Nothing was wrong, you loved to start shit
I could've put you in a starship
Guess I was nothing but a target (Yeah)

You're psycho, stuck in a cycle
Girl I know, you got no love in your heart
I always smile when you call me
'Cause I'm just not good at letting you go

I can't get you out of my head
Can't forget all the words that you said
'Cause you never meant what you said
Bitch you'll love me more when I'm dead
You only love me on the dark side (The dark side, the dark side
)
I can't get you out of my head
Bitch you'll love me more when I'm dead

You're psycho, stuck in a cycle
Girl I know, you got no love in your heart
I always smile when you call me
'Cause I'm just not good at letting you go

I can't get you out of my head
Can't forget all the words that you said
'Cause you never meant what you said
Bitch you'll love me more when I'm dead
You only love me on the dark side (The dark side, the dark side
)
I can't get you out of my head
Bitch you'll love me more when I'm dead

Dark side
Dark side
Dark side
Dark side
